PROFILE OVERVIEW

Dedicated and passionate about programming, I specialize in developing both front-end and back-end applications using React. Currently, I am working on over 3 front-end projects as a freelancer while continuously learning new technologies such as Angular 16 and Next.js. I excel in working within cross-functional teams and enjoy collaborating with peers. At this stage in my career, I am focused on honing my skills and improving my technical abilities.

SKILLS

Programming languages: HTML, CSS, JavaScript, TypeScript, Java, PHP, Python.

Libraries and Environment: Sass, Gsap, Bootstrap, DaisyUI, Tailwind, Express, JQuery, React, Git, GitHub

UX/UI Design: Figma

PROJECTS

Life Airline | [Demo](#) | [GitHub](#)

Website is a static, responsive website that exclusively features the structural elements and CSS for its design.

Tech stack: HTML, Sass, CSS

Note App | [Demo](#) | [GitHub](#)

NoteApp is a single-page application designed for efficient note management.

Users can create notes with a title and body. Existing notes can be easily removed.

Notes are saved in local storage, ensuring they remain available across sessions.

A visual indicator is displayed while notes are being loaded.

Teddies VS Monsters | [Demo](#) | [GitHub](#)

E-commerce platform for the Teddies vs Monsters board game, where players act as Teddy Bears defending their realm against menacing Monsters, creating an engaging and fun gaming experience.

Tech stack: Figma, TypeScript, Tailwind, NextJs, Zuztand, Strapi, Stripe, Swiper

Banks Technical Communication System | [Demo](#) | [GitHub](#)

Innovative technical communication system for all banks in Israel, enabling task scheduling for technicians and managers, prompt issue verification and resolution, and comprehensive record management capabilities.

Tech Stack: Java, JavaFX, SQL, Eclipse IDE

EDUCATION

Web And Mobile Application Development Diploma

Sep 2023

Cornerstone International Community College of Canada

Vancouver, BC
